

Concerned about the health and productivity of your employees?

Join other South African companies that have made Cellfood® a part of their Employees' Health and Welfare Benefits.

Cellfood® is the World's leading Oxygen Mineral Supplement and is sold in over 90 countries around the world.

South African companies have traditionally underestimated the actual costs of absenteeism and are often at a loss on how to deal with the problem. Research has shown that corporate wellness programmes offer a positive return on investment.

Many of the diseases that lead to high absenteeism and inability to perform at optimum levels are related to lifestyle choices. It is both the responsibility of the Employer and Employee to address this.

Where interventions have been successful, cost savings can be seen in decreased use of health care benefits, rates of absenteeism, number of injuries, accidents, and employee turnover (Els, 2007).

Human Resource Managers/Clinic Staff that wish to receive more information regarding the implementation of Cellfood® for their Staff Group Wellness Programme, are invited to telephone Oxygen For Life SA (Pty) Ltd. or send an email in order to arrange a "No Obligation" Corporate Wellness presentation.

Cellfood® is used and recommended by doctors and pharmacists and is NAPPI coded for Medical Aid purposes.

For more information, contact Oxygen For Life SA (Pty) Ltd. on 0860 2355 3663 or e-mail your request to life@oxygenforlife.co.za
