

Health Oxygen For Life! The **Cellfood** Company
Oxygen Mineral Supplement

Concerned about the health and productivity of your employees?

Join other South African companies who have made Cellfood® a part of their Employees' Health and Welfare Benefits.

Cellfood® is the World's leading Oxygen Mineral Supplement and is sold in over 75 countries around the world.

Manufactured from the highest quality organic plant sourced ingredients, it works remarkably by assisting the body in combating a number of ailments, relieving work related stress and thereby improving productivity and quality of life.

Work stress, like any other form of stress, can eventually lead to oxidative stress. When experiencing oxidative stress over an extended period of time, the free radicals causing stress in the first place could cause cell damage, or in severe cases, chronic disease.

Equip your employees with the right means to facilitate a better and healthier quality of life, while at the same time improving productivity and reducing absenteeism due to sickness.

Cellfood® is used and recommended by doctors and pharmacists and is NAPPI coded for Medical Aid purposes.
