Oxygen For Life!

Cellfood® LONGEVITY. A must for chronic conditions.

Homocysteine is an amino acid that occurs naturally in your body. However, as you age, the levels in your body increase and risks of the following conditions are greatly increased:

- Vascular disease – eg: heart attack, stroke, deep-vein thrombosis
- High blood pressure
- Cancer
- Neurodegenerative diseases eg: Alzheimer's disease and Parkinson's
- Depression
- **Diabetes**
- Arthritis
- Obesity
- Thyroid problems
- Ulcers

Cellfood® LONGEVITY has been found to be **most beneficial** as a DNA Regenerating Formula that assists the body in:

- Slowing down the ageing process, by reducing homocysteine in the bloodstream
- Extending longevity, by supplying the cells with nucleic acids for regenerating the DNA of cells and
- Supplying the cells with additional cellular energy (ATP)

Who should take Cellfood® LONGEVITY?

People who:

- Are over 50 years old
- Are diabetic
- Have cardiovascular disease
- Are stressed
- Are ill
- Have poor nutrition
- Do not exercise
- Are exposed to radiation and environmental toxins
- Smokers

Give your clients the edge, recommend Cellfood® LONGEVITY.

“ In the last 25 years a number of prospective studies have confirmed that homocysteine is an independent risk factor for vascular disease in the general population. In addition, a study by Rudy and co-workers (2005) reported that, diabetic patients with coronary artery disease had higher total homocysteine in comparison with diabetic individuals without vascular lesions; homocysteine levels correlated significantly with the incidence ischemic heart disease. Research at a reputable SA university (2009) has confirmed that **Cellfood® LONGEVITY** reduces homocysteine levels by at least 15% without increasing uric acid levels. ”

The Genius behind Cellfood® LONGEVITY

Dr Todd Ovokaitys M.D. (USA) is the formulator of **Cellfood® LONGEVITY**. He is a medical graduate of the esteemed Johns Hopkins and Georgetown Universities in the USA. Not only is Dr Ovokaitys a Certified Physician, Internist, and Pulmonary and Intensive Care Specialist, he also developed Laser Enhanced Technology to optimize absorption of nutrients in **Cellfood® LONGEVITY**, and has published numerous research projects on the subject.

Cellfood® LONGEVITY
Oxygen Mineral Supplement
