

Cellfood[®] OXYGEN Mineral Supplement PRODUCT RANGE

and... Cardiovascular disease

Are you constantly tired? Do you experience chest pain? Heart palpitations? Light-headedness? Shortness of breath? Anxiety? Headaches? Your body could be asking for help to fight cardiovascular disease.

We all know that healthy eating, exercise, not smoking, weight loss and exercise can help. But there are also other useful weapons. The Cellfood[®] product range assists in the prevention of cardiovascular disease.

Cellfood[®] is an oxygen mineral supplement that is rapidly absorbed by the body:

- Assists in restricting further free radical damage in people with cardiovascular disease
- Aids in the repair of damaged tissues
- Provides 78 elements, minerals, trace minerals and amino acids directly at cellular level
- Contains **L-arginine**, a precursor in the production of nitric oxide, a potent vasodilator in the vascular system

Cellfood[®] SPORT / SHAPE contains amongst others:

- **Citrin K:** inhibits the synthesis of fatty acids in the liver, thus helping to prevent the accumulation of potentially dangerous fats.
- **L-carnitine:** essential nutrient allowing the mitochondria of the heart cells to produce energy more effectively. Reduces fat and triglyceride levels in the blood.

Cellfood[®] SPORT
Performance Formula

Cellfood[®] SHAPE
Body Toning Formula

Cellfood[®] LONGEVITY
DNA Regenerating Formula

Cellfood[®] LONGEVITY

High homocysteine levels in the body increases your risk of heart disease dramatically. Cellfood[®] LONGEVITY significantly reduces homocysteine (15%) in the blood stream, reducing the risk of heart attacks, strokes, cancers, diabetes, arthritis, obesity and more.

If you love your heart, try the new Cellfood[®] product range.

Cellfood[®] is manufactured by Nu Science Corporation USA and is distributed by Oxygen For Life SA (Pty) Ltd. For more information ask your pharmacist, health practitioner or contact 0860 CELLFOOD (0860 2355 3663) or visit www.oxygenforlife.co.za
